Provider Profile

Information provided by the provider describing their agency:

When Social Worker Pauline Lang conceived of the idea that grew into the West Haven Community House in 1941, she envisioned a place that would respond to the varied needs of the people of West Haven. In those days Pauline focused primarily on youth, believing strong support of and advocacy for young people would ensure an equally strong future for West Haven.

Almost 70 years later, serving the community's youngest citizens remains a strong part with 163 families in Head Start, 250 children in School-age child care and another 200 in recreation and enrichment programs. In addition, we have a commitment to reducing teen pregnancy and advocating for services to teen parents. We have a caseload of 40 parenting teens and work with another 160 middle school students in life skills education and pregnancy prevention programs.

For over 30 years, we have advocated for and worked with adults with developmental disabilities, helping them meet the challenges they face in employment, in housing and in the community.

Our Residential program serves 18 adults with mental retardation and other mental health issues

Our Community Connections program provides day and work services for 88 adults with disabilities. Our program offers paid work opportunities, work training and placement, job skill development, local community integration, and activities that encourage healthy living.

As the largest private not for profit agency based in the City of West Haven and serving the greater West Haven area, we pride ourselves on taking a leadership role in developing partnerships with other groups in the community to provide a readily available network of services to our citizens. We receive support from many sources: fees, memberships, The United Way, a variety of nonprofit, individual, community and corporate gifts and local, state and federal grants.
